## THE 1998 NLSY79 CHILD ASSESSMENTS

This document contains a variety of cross-tabulations that describe the assessments administered to the children of the National Longitudinal Survey of Youth 1979 female respondents who were interviewed in 1998. It should be noted that these assessments are now administered only to children who have not attained their 15<sup>th</sup> birthday by the end of the survey calendar year in this instance, 1998. More evaluative materials about these assessments will be available in the Spring of 2000.

Users should access *The 1998 NLSY79 Child & Young Adult Data Users Guide*, to be released with the final 1998 Child Data CD-Rom, for a detailed description of the NLSY79 Child assessment data. Until that time, users may examine *The 1996 NLSY79 Child & Young Adult Data Users Guide*. Additional reports are available that describe the strengths and limitations of the various Child data releases. These documents include: *The NLSY Child Handbook 1986-1990 – Revised Edition*, and *The NLSY Children 1992*. To obtain copies of these reports or other related data and documentation, please complete an NLSY79 Child Data/Document Request form or contact the Center for Human Resource Research at the address below:
