

The header graphic features a purple rectangular border. Inside, there is a silhouette of a family (two adults and a child) in white. The background is filled with a pattern of binary code (0s and 1s) in a light purple color. Overlaid on this is the title 'NLSY79 Child & Young Adult Bibliography' in a large, bold, purple serif font.

# NLSY79 Child & Young Adult Bibliography

## Selected Journal Articles, 2006

*The NLSY79 Child & Young Adult surveys profile the development of the children of the mothers in the National Longitudinal Surveys of Youth 1979 cohort (NLSY79). Started in 1986 and repeated biennially, the NLSY79 Child surveys are sponsored by the U.S. Bureau of Labor Statistics with support from NICHD. Mother report, direct assessment, and child self-report are used to gauge the children's growth, health, abilities, problems, activities, attitudes, school progress, and home environment. Starting in 1994, children 15 and older are no longer assessed but interviewed as Young Adults on schooling, employment, training, fertility, marital history, family experiences, health, and attitudes. The Child/YA sample ranges in age from birth to late twenties and contains significant numbers of minority and economically disadvantaged white respondents.*

*The National Longitudinal Survey of Youth 1979 cohort (NLSY79) is a national sample of 12,686 individuals who were 14-22 when first surveyed in 1979. Respondents were interviewed annually through 1994 and are now surveyed biennially.*

*A sampling of journal articles using NLSY79 Child and Young Adult data is listed below. For a complete listing, or to make additions or corrections, visit <http://www.nlsbibliography.org>.*
