Introduction

The newest survey in the NLS program, the National Longitudinal Survey of Youth 1997 cohort (NLSY97) is designed to be representative of the U.S. population born during the years 1980 through 1984. The NLSY97 cohort includes 9,022 respondents ages 12–16 as of December 31, 1996. Through the NLSY97, the Bureau of Labor Statistics (BLS) will be able to identify characteristics defining the transition that today’s youths make from school to the labor market and into adulthood.

This survey was conducted entirely as a computer-assisted interview. The Round 1 survey was conducted using three different questionnaires: the Screener, Household Roster, and Non-Resident Roster Questionnaire; the Parent Questionnaire; and the Youth Questionnaire. The Screener, Household Roster, and Non-Resident Roster Questionnaire was administered to a household resident over the age of 18. The Parent Questionnaire was administered to a parent or parent-like figure of the youth residing in the household. The Youth Questionnaire was administered to the youth respondent living in the household. The content of these survey instruments is contained in separate questionnaire documents, available from NLS User Services.

In a computer-assisted personal interview (CAPI), interviewers have ready access to general and specific instructions that guide them in the administration of the electronic questionnaire. These “help screens” replace the traditional hard copy question-by-question instructions provided to interviewers for a paper-and-pencil interview.

This document contains the help screens available in the CAPI questionnaire for the round 1 NLSY97 survey. These help screens were physically linked to the appropriate questions in the CAPI instrument and were available electronically to the interviewer during the administration of the survey. To assist the reader, the following paragraphs provide an interpretation of the different types of information contained in the screen blocks. This introduction is followed by the help screens associated with the Screener, Household Roster, and Non-Resident Roster Questionnaire; the Parent Questionnaire; and the Youth Questionnaire. Within each instrument, the help screens are arranged according to the section of the questionnaire to which they are attached. Users should note that some questionnaire sections have no associated help screens and are therefore omitted from this document.

The first line in each help screen block indicates the name of that help screen. This name is also the question name of the first question in the instrument to which that help screen is attached. The name is then followed by the actual text of the help screen which would be seen by the interviewer. If the help screen is associated with only one question, the block is complete at this point.

However, many help screens are associated with a number of questions, possibly even in different sections of the questionnaire. In these cases, the help screen is listed in this document in the order of the first question with which it is associated. The text of the help screen is then followed by a list of “Related Questions” indicating other survey questions to which the help screen is attached.

SE-3

Include any persons who reside there but are temporarily away, for example on business or away on vacation. Do not include hired persons who work at the respondent’s residence, but live elsewhere.

SE-4

Biological Relationship: is one in which someone is related by blood or conception and birth. For example, one’s biological father is the same as one’s natural father or the man who made one’s biological mother pregnant.

A Step Relationship: is one in which someone is related through a marriage where the husband and/or wife had children with another partner. For example, one’s step-child is the biological offspring of one’s spouse (with some other partner). One’s step-mother is the wife of one’s biological father (if he is not married to one’s biological mother). One’s step-brother is the biological son of one’s step-mother but not the biological son of one’s biological father, or vice versa.

An Adoptive Relationship: is one in which the permanent legal rights and duties with respect to a child have been transferred from one person or institution to another. The parental rights to an adopted child have been permanently and legally transferred from the birth parents to the adoptive parents. Any other children of the adoptive parents become adopted siblings of the adopted child.

A Foster Relationship: is one in which someone assumes a legal and financial obligation for a child but there is no permanent adoptive relationship.

An In-law Relationship: is one in which someone is related through marriage. One’s mother-in-law is the mother of one’s spouse. One’s son-in-law is the spouse of one’s daughter. One’s sister-in-law is the sister of one’s spouse or the spouse of one’s brother.

A Full Relationship: is one in which the youth and their siblings share the same biological mother and biological father.

A Half Relationship: is one in which siblings share only one common biological parent. Half siblings have the same biological mother, but different biological fathers or vice versa.

A Social Relationship: is one in which a person functions in a particular family role, but is not biologically related. For example, one’s social grandparent would be someone who functions as a grandparent, but is not biologically related to oneself.

In general, “Usually lives here” means that the individual resides in the household 6 or more months out of the year. This is the place where the person usually eats and sleeps. It is possible that the place a person “usually lives” is different from his/her legal residence, i.e., where he/she gets his/her mail, where he/she is registered to vote, the address on his/her car registration and/or driver’s license, etc. An example of a person who’s place he/she “usually lives” is different from his/her legal residence is someone who spends most of their days and nights at the residence of a boy/girl friend yet has his/her own apartment. “Usually lives here” does not include students who are away at school living in a dorm or apartment for more than 6 months of the year, but temporarily reside in the household when school is not in session.

A Step Relationship: is one in which someone is related through a marriage where either the husband and/or wife had children with another partner. A step child is the biological offspring of one’s wife or husband in which the current partner is not related biologically to the child. A step parent would be the parent who is not biologically related to the child who is the biological child of the marriage partner.
An Adoptive Relationship: is one in which the permanent legal transfer of parental rights and duties with respect to a child from one person or institution is transferred to another. For example, an adopted child would be permanently and legally transferred from one person or institution to another and not be biologically related to either parent.
A Foster Relationship: is one in which someone provides and cares for another (or is provided and cared for) as a family member but would not be a biological offspring, adopted, or a step-child.
An In-law Relationship: is one in which someone is related through marriage. For example, a parent in-law is a non-
biological parent through marriage and is the parent of the spouse.
A Full Relationship: is one in which the youth and their siblings share the same biological mother and biological father.
A Half Relationship: is one in which siblings share only one common biological parent. For example, the siblings may have the same biological mother, but different biological fathers or vice versa.

INCOME

P5-045

MONEY MARKET ACCOUNTS - An account that invests in commercial paper, banker’s acceptances, repurchase agreements, government securities, certificates of deposits, and other liquid assets that pay money market rates of interest. The net asset value of a money market fund remains at $1 per share, with only the interest rate going up and down.

TREASURY NOTES (BILLS OR BONDS)- are long term debt agents with maturities of less than a year or longer, the minimum denomination issued varies depending on type issued. The bills mature in less than a year, notes mature between 1 - 5 years, and bonds usually mature even longer. These are issued by the U.S. government and can be owned directly or as part of a mutual fund.

IRA - An Individual Retirement Account is a personal, tax-deferred retirement account where any individual under the age of 70 1/2 can transfer funds that allows the person to save and invest for retirement. The earnings are tax
deferred until drawn upon. An IRA can be opened with a limited deposit of $2000 a year. One can begin withdrawing from his/her IRA’s after age 59 1/2. If you withdraw prior to this age, you are generally subject to a tax penalty.

CD - A Certificate of Deposit or a savings certificate for a specific deposited amount at a fixed rate of interest for a given time period. These certificates can be issued by a bank, savings & loan association, or credit union. There is usually a required minimum deposit; the maturity period can vary from a few weeks to several years; there is a penalty for early withdrawal; deposits are usually insured.

DIVIDENDS - Dividend payments are paid to shareholders of a corporation or some other cooperative society or membership club; usually paid in the form of money or stock. The dividend amount is decided by the board of directors and is usually paid on a quarterly basis. Dividends must be declared as income in the year they are received.

MORTGAGE - Any loan which is collateralized by a home or other real estate. The lender files a lien with the court system which gives them the right to foreclose (take over) the property should the borrower default on the loan.

LAND CONTRACT - Also known as a conditional sale agreement. A contract between a property owner and a potential purchaser, where they agree on the price of the home and the purchaser moves into the property. However, the seller retains legal rights to the property. The buyer makes regular monthly payments, which in some cases completes the sale of the property. In other cases, there is a large balloon payment due which completes the sale. These are often used when the buyer does not have enough money for a down payment.

HOME EQUITY LOAN - Any loan which is collateralized by a person’s home. The usage of this term is restricted to loans which are collateralized by the home, but have a fixed number of payments and a fixed amount borrowed.

A business exists when one or more of the following conditions is met: (1) Machinery or equipment of substantial value is used in conducting the business, or (2) an office, store or other place of business is maintained, or (3) the business is advertised by listing in the classified section of the phone book, or displaying a sign, or distributing cards or leaflets or otherwise publicizing that the work or service is offered to the general public.

YCPS-2800
WORK FOR PAY - working for pay at a job, or running one’s own business or profession or working without pay in the family farm or business. Pay includes work for cash wages or salary, piece rates, commission, tips, or “in kind wages” (meals, living quarters, supplies received in lieu of cash from someone other than a family member).

YCPS-4800
A job exists when there is a definite arrangement for regular work every week, or every month, for pay or other compensations (e.g., profits, anticipated profits, or pay “in kind” such as meals, living quarters, or supplies received in lieu of cash from someone other than a family member). A formal, definite arrangement with one or more employers to work on a continuing basis for a specified number of hours per week or days per month, but on an irregular schedule during the week or month, is also a job. Generally speaking, any job that is usually 35 hours or more per week is considered fulltime. In some occupations, usual weekly schedules of less than 35 hours per week are considered to be fulltime (for example, air traffic controllers).

Persons are on layoff if they are waiting to be recalled to a job from which they were temporarily separated from business-related reasons, such as temporary drops in demand, business downturns, plant remodeling, material shortages, and inventory taking. They must either have been given a date to report back to work or, if not given a date, must expect to be recalled to their job within six months.

YCPS-10300
The job at which the person usually works the most hours is his/her main job. If a person usually works the same number of hours at two jobs, the “main” job is the job at which the person has been employed the longest.

Recording Hours: Record the actual number of hours worked as accurately as possible. Use whole numbers counting 30 minutes or more as a whole hour.

To be considered looking for work a person must have conducted an active search for a job within the four weeks prior
to the interview week. Our definition of looking for work requires an active search. We consider some job search methods to be passive (for example, simply looking at newspaper ads or attending training classes). ACTIVE JOB SEARCH: An active job search is one that could have resulted in a job offer without further action on the part of the job seeker.

ACTIVE JOB SEARCH METHODS:
- Contacted public employment agency
- Contacted private employment agency
- Contacted employer directly
- Sent out resume or filled out applications
- Contacted friends or relatives
- Contacted school/college or university employment center
- Placed or answered ads
- Checked union/professional registers
- Other Active (example, bid on a contract)

PASSIVE JOB SEARCH METHODS:
- Looked at ads, but did not respond
- Attended job training programs (example, took typing course)
- Other passive (example, studied for Real Estate license or picked up a job application)

SCHOOLING

YSCH-600

If R is attending a community college to earn an Associate’s Degree and is taking classes in computer programming, the classes would be considered regular school. If the R is attending a vocational/technical institute to earn a computer programmer’s certificate and is taking classes in computer programming, the classes would not be considered regular school. Consider R to be “attending” if s/he is taking courses that can be applied toward an academic degree, even if s/he is not formally enrolled or taking the course for credit. Do not include courses taken to prepare for the GED.

SUMMER VACATION: Rs on summer vacation are considered enrolled. In ambiguous cases, consider R to be enrolled if s/he intends to return to school (has not dropped out or formally left)

COLLEGE OR UNIVERSITY - A college or university is an educational institution which gives credit towards an academic degree at the post-secondary and post-graduate levels. A college or university will offer candidates an Associate’s, Bachelor’s, Master’s, or Doctoral degree in a specific academic concentration.

Reasons R left school: If the R was in school and left, it is important to accurately code why the R left school. It might be necessary to probe for a specific response. For example, if R says s/he left because s/he “didn’t like the school” ask, “Why didn’t you like the school?” EXAMPLE: Do not code “SCHOOL TOO DANGEROUS” as the reason R left without probing for a specific account of the term, (e.g. gang activity in the surrounding area, drug activity, handguns on the premises, etc.). Record the verbatim response on the comment screen. Do not code “OTHER REASONS, DIDN’T LIKE SCHOOL” or “HOME RESPONSIBILITIES” without first probing for a more specific answer. Record the verbatim response in the comment screen.

EXAMPLES:
- Code “OTHER REASONS, DIDN’T LIKE SCHOOL” if the R says:
  - Disliked teachers
  - Classes were boring
  - Just didn’t like the school
  - Didn’t like to study

- Code “HOME RESPONSIBILITIES” if the R says:
Had to help with housework
Family illness
Lost child care, had to take care of children

Note the distinction between: “OFFERED GOOD JOB, CHOSE TO WORK” and “FINANCIAL DIFFICULTIES, COULDN’T AFFORD TO ATTEND.” If the R left because s/he was offered a good job, this would be by choice and not through necessity. If the R left because s/he needed to go back to work to earn money or the R could not afford expenses such as books, transportation and tuition, this would indicate the R did not leave school by choice.

Remember: Do not code without first probing for a more specific answer.

SUSPENDED - To suspend a student is to temporarily prohibit that person from access to school grounds. The student is in a state of suspension whereupon he/she may not enter school grounds until a certain date. It is used as a way of punishing the student for engaging in misconduct or breaking the school’s rules. Expelled on the other hand is when a student is PERMANENTLY prohibited from attending a learning institution.

Note that this doesn’t include over-the-counter medications or drugs obtained via medical prescription.

YSCH-1800
If the school goes from elementary through high school code the level that the R. was attending; however if it is a four-year college and the R is enrolled in a two-year program, code 5. four-year college.

YSCH-3500
We are asking for the grade currently/last attended. If the R took one college course per year, for the last four years, don’t code “4th year of college”. Probe for how many years of credits they have completed.

Be sure to read all five categories before allowing R to respond. If R responds before you finish, politely tell him/her that you must read the question exactly the same way to everyone, so you must finish reading all the categories before recording his/her answer.

GOVERNMENT EMPLOYER: a government employee can be one of three types: federal, state or local.
PRIVATE EMPLOYER: work for wages, salary, commission, tips, piece-rates or pay in kind; this applies regardless of the occupation at which the employee worked. Also includes Rs working for pay for settlement houses, churches, unions, and other private nonprofit organizations.
NON-PROFIT: not organized or maintained for the making of profit.
WORKING WITHOUT PAY: for Rs working without pay on a farm or business operated by a related member of the household. Room and board and a cash allowance are not counted as pay for these family workers; however, if the worker receives money which is definitely considered to be wages for work performed, s/he should be marked as working for a private company.
ARMED FORCES: This includes the active forces, the reserves and the guard. Civilian employees of the Armed Forces should be coded as Federal employees.

Work includes any activity for wages or salary, for profit or fees, or for payment “in kind” such as meals, living quarters, or supplies received in lieu of cash from someone other than a family member. One hour or more of such activity constitutes work. Work also includes unpaid activity of at least 15 hours a week on a family farm or business.

REGULAR DAY SHIFT: Shift times would not change from day to day and would begin anywhere from the early morning to the early afternoon.
REGULAR EVENING SHIFT: Shift times would not change from day to day and would begin anywhere from the late afternoon to the early evening.
REGULAR NIGHT SHIFT: Shift times would not change from day to day and would begin in the late evening or night-time.
SHIFT ROTATES: Shift times change periodically from days to evenings or nights.
SPLIT SHIFT: Shift consists of two distinct periods each day.
IRREGULAR SCHEDULE OR HOURS: Varies or does not fit into any other shift category. Please select “OTHER” to describe any other work shift.

A job exists when there is a definite arrangement for regular work every week, or every month, for pay or other compensations (e.g., profits, anticipated profits, or pay “in kind” such as meals, living quarters, or supplies received in lieu of cash from someone other than a family member). A formal, definite arrangement with one or more employers to work on a continuing basis for a specified number of hours per week or days per month, but on an irregular schedule during the week or month, is also a job. Generally speaking, any job that is usually 35 hours or more per week is considered fulltime. In some occupations, usual weekly schedules of less than 35 hours per week are considered to be fulltime (for example, air traffic controllers).

The intent of these questions is to gather information about any work benefits or other programs available to the R. If R’s employer offers a benefit to the R that is not taken, you would still consider this available to the R.

⇒ For example, if the R’s firm offers a medical insurance plan which the R does not participate in, you would code “Yes” it is offered and available to the R. Remember, the R should be answering about him/herself as an individual.
⇒ If the employer offers medical insurance to the employees at R’s company, but R cannot participate because of an “existing condition” etc., then code “No,” it is not available to the respondent. This would also be true of an R who does not get benefits because s/he has not been with the company long enough. The respondent should always answer these benefits questions while thinking of what is available to him/herself.
⇒ Co-Pays: “Yes” should be coded even if R has to co-pay.
⇒ Maternity/paternity leave: This does not necessarily mean paid leave.
⇒ Tuition reimbursement: An educational assistance program provides to the employee (not dependents) full or partial payment for tuition and/or books for training or educational courses. Job-related educational assistance includes courses or training which can be used for increasing output in the same field, promotion preparation, career-development, and management for non-supervisory workers.
⇒ Childcare: An employer pays, either fully or partially, the cost of caring for an employee’s child(ren) at a nursery, day care center, or private sitter, on or off the employer’s premises, while the employee is at work.

To be considered looking for work a person must have conducted an active search for a job within the four weeks prior to the interview week. Our definition of looking for work requires an active search. We consider some job search methods to be passive (for example, simply looking at newspaper ads or attending training classes). ACTIVE JOB SEARCH: An active job search is one that could have resulted in a job offer without further action on the part of the job seeker.

ACTIVE JOB SEARCH METHODS:
- Contacted public employment agency
- Contacted private employment agency
- Contacted employer directly
- Sent out resume or filled out applications
- Contacted friends or relatives
- Contacted school/college or university employment center
- Placed or answered ads
- Checked union/professional registers
- Other Active (example, bid on a contract)

PASSIVE JOB SEARCH METHODS:
- Looked at ads, but did not respond
- Attended job training programs (example, took typing course)
- Other passive (example, studied for Real Estate license or picked up a job application)

01 Checked with employer directly. R contacts the employer directly. Direct contact with the employer may be by a personal visit, telephone, or mail.
02 Checked with public employment agency. R checked with any branch of a public Employment Service. It would either be a state office or a small outpost of State Employment Agency personnel in another type of social service agency. Checked with private employment agency. A “private employment agency” is maintained on a profit basis. It gives potential employees leads to potential employers. For this service, the employees and/or employer are charged a fee. Classify private employment agencies which do not charge a fee as “Other.” Do not confuse a “private employment agency” with the employment offices or personnel offices maintained by large businesses. The latter are maintained purely to fill the employment requirements of a particular company or organization. A private employment agency provides employment service for more than one business.
03 Checked with friends or relatives. Sometimes friends or relatives provide leads for jobs. If the R has asked friends or relatives about potential job leads, code this category.
04 School placement center. Refers to any job placement service provided by any kind of school (high school, college, university, technical institute, business school, beautician school, etc).
05 Sent out Resumes/filled out applications. Refers to sending resumes to or filling out applications with potential employers.
06 Placed an ad. R has placed an ad in the newspaper or elsewhere.
07 Checked with union or professional registers.
08 Looked at Ads. For example in a newspaper or on a public bulletin board.
10 Other (SPECIFY). If the R specifies some method of looking other than those listed, code the “Other” category and specify the method (e.g., Manpower Development and Training Act, union, professional register, nonprofit private employment agencies, etc.) in the space provided.

01 Does not want to work. Code this category if the R just says that he/she does not want to work.
02 Ill health, physical disability. Code this category for Rs who would look for work if they weren’t personally ill or disabled.
03 School Employees: School not in session for this period. Note that this only applies to school employees.
04 Armed Forces: Code if R was in the Armed Forces
05 Pregnancy. Code this category for the R who says she is not looking for work because she is pregnant.
06 Can’t arrange child care. Code this category for Rs who say they cannot arrange child care. For example, code this category for a woman who says she would like to go to work, but she cannot find a reliable baby sitter.
07 Personal/Family Reasons. Code this category for R’s who would look for work if they were not hampered by large families, illness in family, or similar reasons. This includes spouse or parents against R working.
08 On vacation, code only if there is a firm commitment on the part of the employer for the R to return to work. This does not have to be paid vacation. For example, the R had a summer job from which they took off several weeks to go with their family or friend on vacation.
09 Labor disputes. Code “09” for R’s who were on strike, were locked out, or who were absent from a plant on strike because they were unwilling to pass through a picket line even though they were not members of the union on strike. Remember that this category only applies when the labor dispute is at the R’s own place of employment.
10 Believe no work available in line of work or in area. Code this category for R’s who say that they are not looking for work at the present time because they believe there is no work available in their communities or in their occupations. EXAMPLE: No work around here, no jobs since the mill closed, no other jobs for women here.
11 Couldn’t find any work. Code this category for R’s who have made some effort to find work and now have become discouraged and stopped looking. In this situation, do not probe to find out if the R has specifically done something during interview week to look for work, as this category is the source of discouraged worker tabulations.
12 In school. Code this category for R’s attending any kind of public or private school, including trade and vocational schools, who would otherwise be looking for work.
14 In jail. This includes all types of jail, penitentiary, reform schools or other places of involuntary incarceration.
15 Transportation Problems. Code this category if R mentions this as a reason he/she is not looking for work.
16 Other (SPECIFY). This category includes reasons which cannot be classified in the above categories. For each “Other” entry, specify the reason given in the space provided. Keep “Other” entries to a minimum. Probing for clearly defined and complete responses will often aid you in classifying a vague answer into one of the provided categories. Classify reasons in existing categories whenever possible. For example, classify an entry of “Depends on finding someone to care for children” as “06.” Classify a response of “Husband wouldn’t let her” as “07.” While the “Other” entries are to be kept to a minimum, we want to know all of the different reasons for not seeking work. If the R gives one answer that is classifiable in the present categories and another that is not, code the category for the reason that is classifiable and also the “other” category and specify the non-classifiable reason in the space provided. Examples of acceptable entries in the “Other” category are “Moving,” “Waiting for work permit.”

By “working” we mean working for pay at a job, or running one’s own business or profession (or farm). Rs working as civilian employees of the Armed Forces or the National Guard are considered working.

A job exists when there is a definite arrangement for regular work every week, or every month, for pay or other compensations (e.g., profits, anticipated profits, or pay “in kind” such as meals, living quarters, or supplies received in lieu of cash from someone other than a family member). A formal, definite arrangement with one or more employers to work on a continuing basis for a specified number of hours per week or days per month, but on an irregular schedule during the week or month, is also a job. Generally speaking, any job that is usually 35 hours or more per week is considered fulltime. In some occupations, usual weekly schedules of less than 35 hours per week are considered to be fulltime (for example, air traffic controllers).

Write in THE FULL, EXACT NAME of the company, business, government agency, or other employer. Probe for the full name of an employer if an acronym or abbreviation is given. For employees whose employers do not have company names, such as dentists, lawyers, construction contractors, etc., write in the name of the owner. If the R questions why we must know his/her employer’s name, explain that because we will be talking about several jobs which s/he might have had, it becomes less confusing if we can refer to each of the different jobs by the employer name. To be considered looking for work a person must have conducted an active search for a job within the four weeks prior to the interview week. Our definition of looking for work requires an active search. We consider some job search methods to be passive (for example, simply looking at newspaper ads or attending training classes). ACTIVE JOB SEARCH: An active job search is one that could have resulted in a job offer without further action on the part of the job seeker.
ACTIVE JOB SEARCH METHODS:
- Contacted public employment agency
- Contacted private employment agency
- Contacted employer directly
- Sent out resume or filled out applications
- Contacted friends or relatives
- Contacted school/college or university employment center
- Placed or answered ads
- Checked union/professional registers
- Other Active (example, bid on a contract)

PASSIVE JOB SEARCH METHODS:
- Looked at ads, but did not respond
- Attended job training programs (example, took typing course)
- Other passive (example, studied for Real Estate license or picked up a job application)

01 Does not want to work. Code this category if the R just says that he/she does not want to work
02 Ill health, physical disability. Code this category for R’s who would look for work if they weren’t personally ill
or disabled.
03 School Employees: School not in session for this period. Note that this only applies to school employees.
04 Pregnancy. Code this category for the R who says she is not looking for work because she is pregnant.
05 Can’t arrange child care. Code this category for R’s who say they cannot arrange child care. For example, code
this category for a woman who says she would like to go to work, but she cannot find a reliable baby sitter.
06 Personal/Family Reasons. Code this category for R’s who would look for work if they were not hampered by
large families, illness in family, or similar reasons. This includes spouse or parents against R working.
07 On vacation, code only if there is a firm commitment on the part of the employer for the R to return to work.
This does not have to be paid vacation. For example, the R had a summer job from which they took off several
weeks to go with their family or friend on vacation.
08 Labor disputes. Code “09” for Rs who were on strike, were locked out, or who were absent from a plant on
strike because they were unwilling to pass through a picket line even though they were not members of the union
on strike. Remember that this category only applies when the labor dispute is at the R’s own place of
employment.
09 Believe no work available in line of work or in area. Code this category for R’s who say that they are not looking
for work at the present time because they believe there is no work available in their communities or in their
occupations. EXAMPLE: No work around here, no jobs since the mill closed, no other jobs for women here.
10 Couldn’t find any work. Code this category for R’s who have made some effort to find work and now have
become discouraged and stopped looking. In this situation, do not probe to find out if the R has specifically done
something during interview week to look for work, as this category is the source of discouraged worker
tabulations.
11 In school. Code this category for R’s attending any kind of public or private school, including trade and
vocational schools, who would otherwise be looking for work.
12 In jail. This includes all types of jail, penitentiary, reform schools or other places of involuntary incarceration.
13 Transportation Problems. Code this category if R mentions this as a reason he/she is not looking for work.
14 New Job to start. Code only if R has a firm commitment from the new employer.
15 Other (SPECIFY). This category includes reasons which cannot be classified in the above categories. For each
“Other” entry, specify the reason given in the space provided. Keep “Other” entries to a minimum. Probing for
clearly defined and complete responses will often aid you in classifying a vague answer into one of the provided
categories. Classify reasons in existing categories whenever possible. For example, classify an entry of
“Depends on finding someone to care for children” as “06.” Classify a response of “Husband wouldn’t let her”
as “07.” While the “Other” entries are to be kept to a minimum, we want to know all of the different reasons for
not seeking work. If the R gives one answer that is classifiable in the present categories and another that is not,
code the category for the reason that is classifiable and also the “other” category and specify the non-classifiable
reason in the space provided. Examples of acceptable entries in the “Other” category are “Moving,” “Waiting
for work permit.”
TRAINING

If R is attending a community college to earn an Associate’s Degree and is taking classes in computer programming, the classes would be considered regular school. If the R is attending a vocational/technical institute to earn a computer programmer’s certificate and is taking classes in computer programming, the classes would not be considered regular school. Consider R to be “attending” if s/he is taking courses that can be applied toward an academic degree, even if s/he is not formally enrolled or taking the course for credit. Do not include courses taken to prepare for the GED.
SUMMER VACATION: Rs on summer vacation are considered enrolled. In ambiguous cases, consider R to be enrolled if s/he intends to return to school (has not dropped out or formally left).

A business exists when one or more of the following conditions is met: (1) Machinery or equipment of substantial value is used in conducting the business, or (2) an office, store or other place of business is maintained, or (3) the business is advertised by listing in the classified section of the phone book, or displaying a sign, or distributing cards or leaflets or otherwise publicizing that the work or service is offered to the general public.

A job exists when there is a definite arrangement for regular work every week, or every month, for pay or other compensations (e.g., profits, anticipated profits, or pay “in kind” such as meals, living quarters, or supplies received in lieu of cash from someone other than a family member). A formal, definite arrangement with one or more employers to work on a continuing basis for a specified number of hours per week or days per month, but on an irregular schedule during the week or month, is also a job. Generally speaking, any job that is usually 35 hours or more per week is considered full-time. In some occupations, usual weekly schedules of less than 35 hours per week are considered to be full-time (for example, air traffic controllers).

MORTGAGE - Any loan which is collateralized by a home or other real estate. The lender files a lien with the court system which gives them the right to foreclose (take over) the property should the borrower default on the loan.

LAND CONTRACT - Also known as a conditional sale agreement. A contract between a property owner and a potential purchaser, where they agree on the price of the home and the purchaser moves into the property. However, the seller retains legal rights to the property. The buyer makes regular monthly payments, which in some cases completes the sale of the property. In other cases, there is a large balloon payment due which completes the sale. These are often used when the buyer does not have enough money for a down payment.
