Overview and Instructions

This survey is designed to collect information for the Department of Education and the Bureau of Labor Statistics on academic and career preparation programs. The data from this survey will be used by researchers and federal and state policy makers to address the important issues facing today’s youth as they move from school to work and, more generally, from adolescence to adulthood. We first ask general questions about your school, the staff, and the student body. Then we ask more specific questions about career preparation and academic programs offered to students in your school.

We ask that you do not look up records to answer the survey questions. Please have the principal or their designee provide their best estimates in answering these questions. This survey should take an average of 30 minutes to complete.

If you need help:

If you have any questions or if you need help completing this survey, please call us at 1-888-929-0608.
